We are approaching "that" time of year again and we have a tentative schedule for MCAS testing 2024.

Information about the April 8, 2024 Eclipse

A total solar eclipse will be visible from many parts of the US on April 8, 2024. While no location in Massachusetts will experience totality, some parts of the state will see over 95% coverage of the sun if weather permits. The eclipse will begin shortly after 2 PM ET and will last about 2 and a half hours until about 4:30 PM ET.

For more information see the DESE page [Resources for the April 8, 2024 Total Solar Eclipse - Science, Technology/Engineering, and Mathematics \(STEM\).](#)

The eclipse may overlap with dismissal for many Massachusetts schools. Preparation to safely view

the eclipse is recommended! Please instruct students not to look directly at the eclipse without proper eye protection.
